Affiliates are paid depending on the number of Clients introduced only.

5.13. Guaranteed Stop Loss Order Fee (GSL Fee)

There is a fee charged when the Guaranteed Stop Loss Order is triggered and executed. The fee is charged in the form of an extra spread and is expressed in percentage. The percentage is displayed in the deal ticket when placing the Guaranteed Stop Loss Order on the CAPITAL.COM Online Trading Platform. The GSL Fee is calculated by the following formula:

$$GSL\ Fee = Extra\ Spread * GSL\ Price * Quantity\ of\ the\ trade$$

The amount of fee charged is displayed in the trade history once the GSL is triggered and executed.

5.14. Dividends

Adjustments will be made to the Client's Accounts due to dividend payments related to the underlying equity. Such adjustment will be calculated by the Company basing on the size of the dividend, the size of Client's position, taxation and whether it is a buy or a sell trade. If the Client holds a long Position, the Company will adjust such Client's Account in Client's favor by the dividend

multiplied by the long quantity as adjusted, if necessary, for taxation. If the Client holds a short Position, the Company will adjust such Client's Account in Company's favor by the dividend multiplied by the short quantity as adjusted, if necessary, for taxation.

A dividend adjustment is applied when an underlying share passes its ex-dividend date (including the ex-date of any special dividend) in the underlying stock market.

PART 8. TRADING POLICIES AND PROCEDURES/ORDERS

8.1. Placing Orders

You may give us instructions in electronic form through the Website or the mobile app. In these Terms “instructions” and “orders” have the same meaning.

8.2. Types of Orders Accepted

8.2.1. An order is an offer to open or close a transaction if our price moves to, or beyond, a level specified by you. Our approach is to place orders solely as a principal and not as an agent on your behalf; we are the sole counterparty to your trades and the sole execution venue for your orders. The CAPITAL.COM Online Trading Platform supports the following types of orders:

a. A Market Order is an instruction to buy or sell a CFD immediately in a specified size at the best available market price for that size. When you place a Market Order with us you acknowledge that such Market Order allows us to execute your order at a price that is different than our quoted bid/offer price at the time you place it. This order type does not allow any control over the price it will be filled at. Market Orders can be placed only during the trading hours of the underlying asset. Where there is insufficient liquidity available for the specified size your Market Order will be partially filled while the remaining quantity will be cancelled by the system. A Market Order can have taken Profit/ Stop Loss Orders attached.

b. A Limit Order is an instruction to buy a CFD at no more than a specific price, or to sell it at no less than a specific price (called ‘or better’ for either direction). This gives you a control over the price at which the Limit Order is executed, however this Limit Order may never be executed (or filled). A Limit Order can be used to either open or close a position. When there is insufficient liquidity available for the specified price your Limit Order will be partially filled with the remaining quantity actively pending until it is fully filled or cancelled. Once a Limit Order is triggered it will be executed at a level that is the same or better than the level specified by you. Limit Orders can have taken Profit and Stop Loss orders attached.

c. A Working order is a general term for opening either a Stop or Limit Order.

d. A Stop Market Order is an instruction to execute a trade when a price level (the Stop Market Level) is reached that is equal to or worse than the current best price (a Stop Market Order). When the Stop Market level is reached, the Stop Market Order will trigger and a Market Order will be sent to execute the trade at the best price available at the time the Order is placed for the quantity you wish to buy or sell. Your execution price may be better or worse than the Stop Market Level you set depending on the liquidity available and the size of your Order. Stop Market Orders can only be placed during the Trading Hours of an Instrument. Stop Market Orders can be cancelled at any time, even when the market is closed. In order to amend a Stop Market Order, you would need to cancel the existing one and place a new Stop Market Order provided the market conditions allow that. Stop Market Orders can be used to open or close a trade and can be Good For Day (GFD) or Good Til Cancelled (GTC). This means that for "GFD" Stop Market Orders, any portion of the Stop Market Order which has not been executed during the trading day in which the Order was placed is automatically cancelled at the end of that trading day. It may be the case that your Stop Market Order could be partially executed if there is insufficient liquidity to cover all of your Order at the time your Stop Market Order is triggered. A "GTC" Stop Market Order would remain a working order until you choose to cancel it, if it is cancelled because you are on a margin call, or your Order is filled and becomes a position. Take Profit and Stop Loss Orders attached to Stop Market Orders will be set at a specified level away from the worst execution price received (e.g. 50 points away from the highest Offer price for a Long Market Order). Your Take Profit and Stop Loss Orders will not be set at a level relative to the volume weighted average opening price of your Order.

e. A Take Profit is an order that can be attached to working orders, market orders or open positions, to close a position at a price that is better than the current price. This order type is primarily used to lock in profits from a position. If the market has moved to the opposite direction of a position, it is possible to set up a Take Profit at a price that is better than the current price but worse than the opening price. Thus, it is possible to limit losses with a Take Profit order. Where a Take Profit Order is attached to a working order it will be a contingent order that would become active once all or part of your opening order has been executed giving rise to a position being opened on your Account. The Take Profit Orders will be filled at the predefined price. If a Take Profit Order is partially executed because there is insufficient liquidity at the price you specified, the remaining part of your order will be active until your price level is reached again and more liquidity is available. A Take Profit Order will remain active until it is executed or removed, or the open position is closed.

f. A Stop Loss is an order that can be attached to working orders, market orders or open positions, to close a position at a price that is worse than the current price. This order type is primarily used to limit the potential losses you can incur from an open position. If the market has moved to the direction of a position, it is possible to set up a Stop Loss at a price that is worse than the current but better than the opening price. Thus, it is possible to lock profits with a Stop Loss order. If the Stop Loss level is reached, the Stop Loss Order is executed as a Market Order at the best price available for the quantity you wish to buy or sell. A Stop Loss Order will remain active until it is executed, or removed, or the open position is closed. If a Stop Loss Order is partially executed because there is insufficient liquidity, the remaining part of your order will be active until your price level is reached again and more liquidity is available.

We do not guarantee that a Stop Loss Order will be filled at the price specified.

g. A Guaranteed Stop Loss Order is an order that can be attached to working orders, market orders or open positions, to close a position at an exact price determined by you that is worse than the current price. This order type is used to limit the losses you can incur from an open position. If the market has moved to the direction of a position, it is possible to set up a Guaranteed Stop Loss at a price that is worse than the current but better than the opening price. Thus, it is possible to lock profits with Guaranteed Stop Loss order. When accepting your Guaranteed Stop Loss Order we guarantee that when our bid or offer quote goes beyond the price specified by you, we will close your position at exactly the price specified. An open position can be closed at your initiative before reaching the Guaranteed Stop Loss Order level. As we guarantee your close out price, there is a fee charged when the Guaranteed Stop Loss Order is triggered and executed (see cl. 5.12 Guaranteed Stop Loss Order Fee (GSL Fee)).

8.2.2. Limit Orders and Stop Loss Orders for equity CFDs are executed based on the preceding ex-dividend prices and if not fully executed before the occurrence of the forthcoming Corporate Event, entitling the Client to a dividend for the equity CFD position(s) he/she currently holds, the Client's relevant CFD position(s) will be closed by the Company prior to that Corporate Event at the then prevailing market price. Similarly, the Company will ask the Client to close any affected pending Limit Orders and Stop Loss Orders before the forthcoming Corporate Event or will do so on its own, if the Client fails to act accordingly.

8.2.3. Limit Orders and Stop Loss Orders applied to equity CFDs based on cum-dividend prices will be valid for the ex-dividend price (and vice versa) unless specifically cancelled by the client.

8.2.4. We may introduce new types of orders from time to time by posting a relevant alert and updating the current information on our platform.

8.3. Terms of Acceptance for Orders

8.3.1. It is your sole responsibility to clearly indicate the terms of an order when entered, whether it is a Market Order, Limit Order, Take Profit, Stop Loss or any other type of order, including the relevant price and lot size.

8.3.2. You acknowledge and agree that, despite our best efforts, the price at which execution occurs may be materially different to the price specified in your order. This may result from sudden price movements in the underlying assets that are beyond our control.

8.3.3. The Company shall have no liability for failure to execute orders.

8.3.4. The Company shall have the right, but not the obligation, to reject any order in whole or in part prior to execution, or to cancel any order, where your Account contains margin that is insufficient to support the entire order or where such order is illegal or otherwise improper.

8.4. Execution Policy

8.4.1. If there are no specific instructions from the Client on how to execute the order, we will consider several execution factors to ensure that we manage the order on terms most favourable to our Client. These execution factors include:

- a. price;
- b. speed;
- c. likelihood of execution and settlement;
- d. costs;

e. size and nature of the order;

f. any other considerations relevant to the execution of the order.

8.4.2. It is emphasized that the specific instructions as mentioned above prevent the Company from taking the steps that it has designed and implemented in order to ensure the best possible result for the execution of those Orders in respect to the elements covered by those instructions.

We do not consider the above list exhaustive and the order in which the above factors are presented shall not be taken as an indication of their priority.

8.4.3. The best possible result for our Clients will be determined in terms of the total consideration, represented primarily by the price of the financial instrument and the costs related to the execution. The costs related to the executions include the expenses incurred by the Client which are directly related to the execution of his/her order.

8.4.4. The other execution factors of speed, likelihood of execution, size, nature or any other relevant consideration will, in most cases, be secondary to the price and costs considerations, unless they would deliver the best possible result for the Client in terms of total consideration.

8.5. Cancellation/Withdrawal of Instructions

8.5.1. Non-market orders may be cancelled via the CAPITAL.COM Online Trading Platform but we can only cancel your instructions if you explicitly request so, provided that we have not acted up to the time of your request upon those instructions.

8.5.2. Executed instructions may only be withdrawn or amended by you with our consent.

8.5.3. The Company shall have no liability for any claims, losses, damages, costs or expenses, including legal fees, arising directly or indirectly out of the failure of such order to be cancelled.

8.6. Right not to Accept Orders

We may, but shall not be obliged to, accept instructions to enter into a Transaction. If we decline to enter into a proposed Transaction, we shall not be obliged to give a reason but we shall promptly notify you accordingly.

8.7. Control of Orders Prior to Execution

8.7.1. We have the right (but not the obligation) to set limits and/or parameters to control your ability to place orders at our absolute discretion. Such limits and/or parameters may be amended, increased, decreased, removed or added to by us at our absolute discretion and may include (without limitation):

a. controls over maximum or minimum order amounts and maximum or minimum order sizes;

b. controls over our total exposure to you;

c. controls over prices at which orders may be submitted (to include, without limitation, controls over orders which are at a price which differs greatly from the market price at the time the order is submitted to the order book);

d. controls over the Electronic Services (to include, without limitation, any verification procedures to ensure that any particular order or orders has come from you); and/or

e. any other limits, parameters or controls which we may be required to implement in accordance with Applicable Regulations.

8.8. Trade Adjustments

8.8.1. Clients must be aware that CFD transactions carry a high degree of risk. The amount of initial margin may be small relative to the value of the instrument so that transactions are 'leveraged' or 'geared'. A relatively small market movement may have a proportionately larger impact on the funds that the Client has deposited or will have to deposit. This may work against as well as for the Client.

8.8.2. The Company exclusively reserves the right to widen its variable spreads, adjust leverage and/or increase the margin requirements without notice under certain market conditions including, but not limited to, when the CAPITAL.COM

Trading desk is closed, around fundamental announcements, as a result of changes in credit markets and/or at times of extreme market volatility.

8.9. Execution of Orders

We shall use our reasonable endeavours to execute any order promptly, but in accepting your orders we do not represent or warrant that it will be possible to execute such order or that execution will be possible according to your instructions. If we encounter any material difficulty relevant to the proper carrying out of an order on your behalf we shall notify you promptly.

Despite the above, we have designed appropriate policies and procedures in order to ensure compliance with the obligation to execute orders on terms most favourable to our clients and to achieve the best possible result for them, taking into consideration each client's ability, needs and trading policies, producing a result which provides, in our view, the best balance across a range of sometimes conflicting factors. For more information please refer to the [Order Execution Policy](#). In respect of Retail Clients, the best possible result is determined in terms of the total consideration. The Company shall apply best execution rules in cases where you have not provided the Company with specific instructions.

We take all the appropriate measures in to manage any possible conflict of Interest that may arise in accordance with the provisions of our [Conflict of Interest Policy](#).

In accordance with MiFID II requirements, the Company has the obligation regarding the annual publication of information on the identity of execution venues and on the quality of execution as per the requirements of the [Commission Delegated Regulation \(EU\) 2017/576](#) (hereafter the "RTS28").

8.10. Reporting Transactions and Account Statements

8.10.1. Trade Confirmations

Confirmations for all Transactions that we have executed on your behalf on that trading day will be available on the mobile app, which are updated online as each Transaction is executed.

Confirmation of execution and statements of your Account(s), in the absence of manifest error, shall be deemed correct, conclusive and binding upon you if not

objected to within three days by e-mail if orders were placed through the Company's Online Trading Platform.

In cases where the prevailing market represents prices different from the prices posted online by the Company on the Website and the mobile app, the Company will attempt, on a best efforts basis and in good faith, to execute Market Orders on or close to the prevailing market prices. This may or may not adversely affect Client's realized and unrealized gains and losses.

8.10.4. The Client might request to receive the Account statement monthly or quarterly via email, by providing such a request to the Client Support Department (support@capital.com).

8.10.2. EMIR Reporting

instruments we offer on the CAPITAL.COM Online Trading Platform. As a result of the highly automated nature of the delivery of these streaming, tradable prices, you acknowledge and accept that price misquotations are likely to occur from time to time.

8.15. Position Limits

We may require you to limit the number of open positions which you may have with us at any time and we may in our sole discretion close out any one or more Transactions in order to ensure that such position limits are maintained.

8.16. Withdrawals

Without prejudice and subject to these Terms and all Applicable Laws and Regulations funds may be withdrawn by you from your Account once your withdrawal request is processed and approved, provided that such funds are not being utilized for margin purposes or have otherwise become owing to us, there is a remaining positive balance on your Account and the Account is approved following the verification of the Client as per the applicable Anti-Money Laundering Laws and Regulations governing the Company.

We will process your request to withdraw funds on the same day that the request was received, or the next working day if your request is received outside of our normal business hours.

Your withdrawal request will be processed by us and sent to the same bank, credit card or other source for execution owned by you. No Account withdrawals to third parties will be processed by the Company.

If you request a withdrawal of funds from your Account and we cannot comply with it without closing some part of your open positions, we will not comply with the request until sufficient positions are closed, and we have established that you have a positive balance on your Account to make the withdrawal.

8.17. Inactive Account and Dormant Accounts

8.17.1. The Client acknowledges and confirms that any Account(s) holding funds, held by him/her with the Company where the Client has neither opened nor closed positions and doesn't have an active open position for a period of 1 (one) year and more, shall be classified by the Company as an Inactive Account ("Inactive Account").

8.17.2. Any Account that is not an Inactive Account shall be classified by the Company as an active Account ("Active Account").

8.17.3. The Client further acknowledges and confirms that such Inactive Accounts will be subject to a monthly charge of 10 USD (or the equivalent of the same in the Base Currency of such Inactive Account), relating to the maintenance/administration of such Inactive Accounts.

8.18. Negative Balance Protection

CFDs are leveraged products and therefore incur a high level of risk and may result in the loss of all the Client's Invested Capital. For the benefit of the Company's Clients, the Company has implemented a "no negative balance" protection program, on an account basis, whereby the Client cannot lose more than his/her investment. Nonetheless, the Client is expected to actively monitor and manage open positions in the account and to contact the Company about options if the account is close to a Margin Call.

It is possible for adverse market movements to result in the loss of more than your Account balance, so that it becomes negative. In this case, we will bear the negative consequences of such adverse events and any of your losses will be limited to your Account balance.

8.19. Corporate Events

8.19.1. The Client has no rights or obligations in respect of the underlying instruments or assets relating to his/her CFD. Specifically, in case of an equity CFD you will not receive any voting rights. However, the underlying instrument can be affected by various Corporate Events. A “Corporate Event” is any action or event, whether temporary or otherwise, in relation to an underlying asset(s) of the CFD, or in relation to the issuer of an underlying asset(s) of the CFD, which would have an effect on the value, legal characteristics or ability to trade the underlying asset(s) or the CFD based on or referencing such underlying asset(s), including: distributions or the grant of entitlements to existing holders of rights in the underlying asset(s), dividend payments, the granting of rights to purchase, subscribe or receive any underlying asset(s) (whether for free, on preferential payment terms or otherwise) or cash, placings, rights issues, bonus/scrip issues, capitalization issues and similar issues, mergers or takeovers relating to the issuer of the underlying asset(s), sub-divisions, splits, reductions (including share buy-backs), consolidations, reclassifications, restructurings, cancellation or suspension of listing of the underlying asset(s) or the issuer of the underlying asset(s), and any action or event analogous to any of the foregoing or otherwise that may have a diluting or concentrative effect on the value of the underlying asset(s) of the CFD.

8.19.2. In case a Corporate Event will occur while the Client is holding an open CFD position or has a pending order affected by such event, we will notify the Client in advance of such Corporate Event and ask him/her to close the relevant position(s) and cancel the affected pending orders before that Corporate Event occurs. If the Client fails to do so, we will close any Client CFD position(s) to be affected by the forthcoming Corporate Event at the then prevailing market prices and suspend any affected orders of the Client before that Corporate Event takes place. Closing of Client's CFD position(s) affected by a Corporate Event will not take place in case of dividend payments related to underlying equities. In this case adjustments will be made to the Client's Account, such adjustment will be calculated by the Company based on the size of the dividend, the size of Client's position, taxation and whether it is a buy or a sell trade. For more details please see paragraph 5.14.

8.20 Expiring CFDs

Certain CFDs shall have an expiry date. On the expiry date an open position on the expiring CFD will be closed automatically at the then prevailing market price, any affected order(s) will be cancelled. Nothing precludes the Client from closing the relevant position and cancelling the affected pending orders prior to the expiry

date.

The expiry date for the relevant CFD shall be published on the relevant section of the Company's website and on the mobile app. Should the expiry date change, the Client will be notified accordingly.

PART 10. CLIENT MONEY

10.1. Client Money

We treat all funds received from you or held by us on your behalf (“Client Money”) in accordance with the requirements of the Client Money Rules.

The following steps have been taken by the Company in order to ensure the protection of Clients’ financial instruments or funds:

- Segregation: As per the provisions of this Agreement funds belonging to the Client that will be used for trading purposes will be kept in accounts with credit institution(s) used to accept only Client’s funds and as such will be held segregated from the Company’s own funds.
- Investor Compensation Fund: The Company being a member of the Investors Compensation Fund (hereinafter “the Fund”) provides the Client, if is being categorized as retail Client, with the security of receiving a compensation from the Fund, for any claims arising from the malfunction on behalf of the Company or if the Company fails to fulfil its obligations regardless of whether that obligation arise from a breach of applicable law or regulations, the Agreement

or from any wrongdoing by the Company. Further details in regard to the Fund and the conditions which apply are available under Section 20.8 of this Agreement.

- Due diligence measures: The Company has the obligation to exercise all due skill, care and diligence in selection, appointment and periodic review of the credit institution(s) where Clients' funds are placed. The Company's due diligence measures have been designed in such a manner so as to ensure that expertise and market reputation of such institutions are taken into consideration.
- The Company may hold Clients' funds in omnibus account with third party financial and credit institutions. Hence, the Client is warned that there is a link of loss emanating from the use of omnibus accounts in financial or credit institutions. Omnibus accounts may also hold other types of risks including legal, haircut risk, liquidation risk, third party and others.
- The Company may transfer Clients funds to the Forex Company according to the Clients consent and acceptance of the terms and conditions. By accepting the terms and conditions the client acknowledges and agrees with the fact that the Company is subject to specific regulation and supervision regarding the safekeeping of financial instruments and funds held for clients and that the Forex Company is subject to local specific regulation and supervision.

10.2. Interest

You, the Client, acknowledge and confirm that no interest will be received on the balance of your Account.

10.3. Overseas Banks

10.3.1. We will endeavour to hold Client Money on your behalf within Cyprus and the European Union. The funds will be kept in bank accounts denominated as Client funds and clearly segregated from the Company's own funds.

10.3.2. Client Money deposited may be kept in one or more omnibus accounts with any authorised credit institution used to accept funds which the Company will specify from time to time and will be held in the Company's name.

10.3.3. We will not be liable for the insolvency, acts or omissions of any third party referred to in this Part.

10.3.4. In accordance with part 10.1 of these terms and conditions the Company may transfer Clients funds to the Forex Company according to the Clients consent and acceptance of the terms and conditions. This transfer will only be executed after it has been initiated by the Client.

10.4.1. With regards to the deposit of Clients Money, in the event we do not deposit Client Money with a central bank, we exercise all due care, skill and diligence in the selection, appointment and periodic review of the credit institutions and banks where the funds are placed and the arrangement for the holding of those funds.

10.4.2. It shall be noted that we take into account the expertise and reputation of the third party as well as the legal requirements or market practices related to the holding of those financial instruments that could adversely affect our Clients' rights.

10.5. Payment Service Providers

10.5.1. The Company may keep merchant accounts in its name with payment services providers (hereinafter "PSP") used to settle payment transactions of its Clients. However, for the avoidance of doubt, it is noted that such merchant accounts are not used for safekeeping of Client Money but only to effect settlements of their payment transactions.

10.5.2. Your Client Money is being processed through accounts maintained in the following PSPs: "ECOMMPAY LIMITED", an authorized payment institution regulated by the UK Financial Conduct Authority; "SafeCharge Limited" an electronic money institution authorized and regulated by the Central Bank of Cyprus; "WorldPay(UK) Limited", "WorldPay Limited" and "WorldPay AP Limited", authorised payment institutions regulated by the UK Financial Conduct Authority.

10.7.1. The Company may hold client funds in omnibus accounts within third party financial and credit institutions. In this respect, the Client is warned that there is a risk of loss emanating from the use of omnibus accounts in financial or credit institutions. In such case it may not be possible to distinguish if the particular Client funds are held by a certain financial or credit institution. Omnibus accounts may also hold other types of risks including legal, liquidation risk, haircut risk, third party risk and etc.

10.7.2. In the event of insolvency or any other analogous proceedings in relation to a financial or credit institution where client funds are held, the Company (on behalf of the Client) and/or the Client may only have an unsecured claim against the financial or credit institution, and the Client will be exposed to the risk that the money received by the Company from the financial or credit institution, is insufficient to satisfy the claims of the Client with claims in respect of the Account. The Company does not accept any liability or responsibility for any resulting losses so in the unlikely event of default the proportionate loss shall affect all of the Company's Clients' monies held in omnibus accounts with the financial or credit institution. To mitigate this risk the client funds are being held in few

reputable financial or credit institutions and constant exposure monitoring is taking place.

10.8. Unclaimed Client Money

You agree that we may cease to treat your money as Client Money if there has been no movement on your balance for six (6) consecutive years. "This product is complex and has been determined as unsuitable for me".

20.16.3. if we determine that we do not have enough information to assess our CFDs are appropriate/suitable for a Spanish Client the following warning shall be shown to that Client:

“You are about to purchase a CFD, a product that is complex and difficult to understand. The National Securities Market Commission of Spain (Comisión Nacional del Mercado de Valores) has determined that, due to the complexity of the CFDs and the risks involved, the purchase of CFDs by retail investors is not appropriate/suitable. Capital.com has assessed your knowledge and experience and has determined that it does not have enough information to determine whether the CFDs are convenient for you.

The CFD you are about to purchase is a leveraged product. Please be aware that the losses incurred may be the entire amount invested.

Please be aware that if you decide to close your position immediately after purchasing you will have to pay [the relevant amount and currency shall be indicated]”.

Prior to the first two (2) trades a Spanish Client will be prompted to electronically sign the pages where the special warning appears and they will be able to make a statement by typing the following wording:

“This is a complex product and due to the lack of information provided, it could not be determined as convenient for me”.

The special warnings for Spanish Clients and their relevant typed statements shall form a part of the contractual documentation between the relevant Spanish Client and the Company. A record will be kept of the typed statements made by Spanish Clients that will be readily available for review and inspection by the CySEC or any other competent authority.

20.16.4. All or our advertising mechanisms that will be available Spanish Clients shall include the following statement:

“Difficult product to understand, CNMV has determined that it is not suitable for retail investors due to its complexity and high risks involved”.

20.16.5. The Spanish Client will be given the opportunity to expressly declare and acknowledge that he or she is fluent in English and therefore can understand and accept all warnings he or she was provided in English as well as acknowledge that he or she understands the relevant typed statement made in English. 20.18. French Clients

20.18.1. The provision of Services on CFDs (i) to a non-professional Client, or to a potential Client who cannot be considered to be a professional Client with certainty and (ii) who is located in France at the time of acceptance of these Terms (“French Client”) is automatically subject to the following special procedure of placing and executing a Guaranteed Stop Loss Order:

A Guaranteed Stop Loss Order for a French Client is an order that is automatically attached to all orders of a French Client to close a position at an exact price determined by a French Client that is worse than the current price, but under no circumstances is at the level that can lead to losing more than the French Client initially invested in placing this specific order. A French Client is therefore contractually not provided with the possibility to place a Guaranteed Stop Loss Order at the level that can lead to losing more than he initially invested in a specific order. This order type represents the protection mechanism that structurally prevents a French Client from losing an amount greater than the amount initially invested. When accepting a Guaranteed Stop Loss Order from a French Client we guarantee that when our bid or offer quote goes beyond the specified price, we will close the position at exactly the price specified, in this way we guarantee that

a French Client will never lose more than the amount he invested in placing an order. An open position can be closed at the initiative of a French Client before reaching the Guaranteed Stop Loss Order level.
